

Lokesh yadav

Full-stack web developer

lokeshyadav1098@gmail.com | 09560545070 | D/120, NEW PALAM VIHAR, PHASE -1

EDUCATION

JC BOSE UNIVERSITY OF SCIENCE AND TECHNOLOGY , YMCA
COMPUTER ENGINEERING BACHELOR'S
CGPA: 7.7

November 2021 - June 2025
faridabad , Haryana

SKILLS

PROGRAMMING LANGUAGES	C++, Python
LIBRARIES/Frameworks	React, Javascript, Django, Django_REST, Three js, Express js, Node js, Bootstrap, Tailwind css, Gsap
TOOLS / PLATFORMS	Vercel, Git/Github
DATABASES	Mongo DB, SQL

PROJECTS / OPEN-SOURCE

WECHAT | [LINK](#) Javascript , react js , mongo db , node js , express js , gsap

- Developed a robust and scalable real-time chat application using a full-stack technology stack. Leveraged React.js for the dynamic and responsive front-end, creating an intuitive and seamless user interface with Bootstrap for styling.
- On the server-side, implemented the back-end using Express.js and Node.js, enabling efficient WebSocket communication for real-time messaging. Integrated MongoDB as the database to store and manage user profiles, chat history, and other relevant data, ensuring data consistency and reliability.
- Ensured secure user authentication using Google Authenticator, enhancing the app's security measures.

THREE JS | [LINK](#) react js , three js , gsap

- Created an interactive 3D visualization using Three.js, showcasing dynamic scenes, custom 3D models, and user interaction. The project emphasizes optimized performance, cross-browser compatibility, and includes thorough documentation. This highlights both technical proficiency and a creative approach to delivering immersive web-based 3D experiences.

FUNDABLE - WEB 3.0 CROWDCRYPTO ReactJS , Tailwind , Javascript , ThirdWeb , Solidity

- Developed Web 3.0 based Crowd funding App which provides features such as creating campaigns , donating to campaigns, seeing list of donors etc
- Implemented create campaign , donate to campaign , getDonators , getCampaigns APIs in Solidity as contract , subsequently deployed to ThirdWeb
- Utilized the ThirdWeb SDK to retrieve campaigns and donators list from Blockchain and used smart wallet connect feature
